1 Introduction

This document illustrates the use of BibTeX. You may want to refer to **?** or **?** or **?**. Or you may want to cite a specific page in a reference, like this: see **?**, p. 199. Or perhaps you want to cite more than one paper by Maskin: **?**. Or you want to make a parenthetical reference to one or more articles, in which case the `\citealt` in the `te.bst` bibliography style omits the parentheses around the year (**?**).
